1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 16 line 7, "the predetermined position" lacks antecedent basis and is also confusing as to what element is being referred to. Using "a predetermined position of the bracket" is one example of acceptable language.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-3,6,7,12,13 and 16-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Matteson.

Hooks are shown at 121, while the pivot means is 63-71, etc. All else is clearly shown. The language can be broadly interpreted at this time.

5. Claims 12 and 13 are rejected under 35 U.S.C. 102(e) as being anticipated by Qiu.

Resilient tab is seen in figure 1. Hooks clearly retain the fan on the bracket. All else is clearly present.

6. Claims 7,9,12,13 and 16-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Clements.

Hooks and retention means are clearly seen, as are broad pivot means and hinge pins 158/162.

7. Claims 4,5,8,10,11,14 and 15 are not rejected on art and would be allowed if made fully independent.

8. Note the two additional references which show fans hinged to brackets/chasses/etc.
